

DJ Renzo

Open Format, Mainstream, Latino, Rock, Urban / Luleå|Stockholm

Renzo Alvarez is an experienced DJ with over 20 years behind the decks, known for bringing the right energy to any audience. With a strong instinct for reading the room, he builds sets that work from relaxed receptions to packed dance floors.

His sound moves between mainstream hits, Latin music and Afro/urban influences, making him a versatile choice for both broad audiences and more trend-focused events. He blends commercial music with rhythm and warmth, always building an atmosphere that lasts all evening.

Renzo regularly plays corporate events, private occasions, club nights and themed evenings with Latin and Afro influences.

His years behind the decks have also taken him beyond Sweden, with bookings in Norway, Germany and Finland, among other countries.

Alongside DJing, he also works as a sound engineer, giving him an understanding of the entire process from setup to delivery. For organisers, that means fewer complications and a smoother overall experience.

Based in northern Sweden with bookings across the country, Renzo is a reliable choice for organisers looking for musical delivery and a professional approach to the entire event.
